

ALL TERRAIN MAT 3

SAFETY WALKWAY MATS

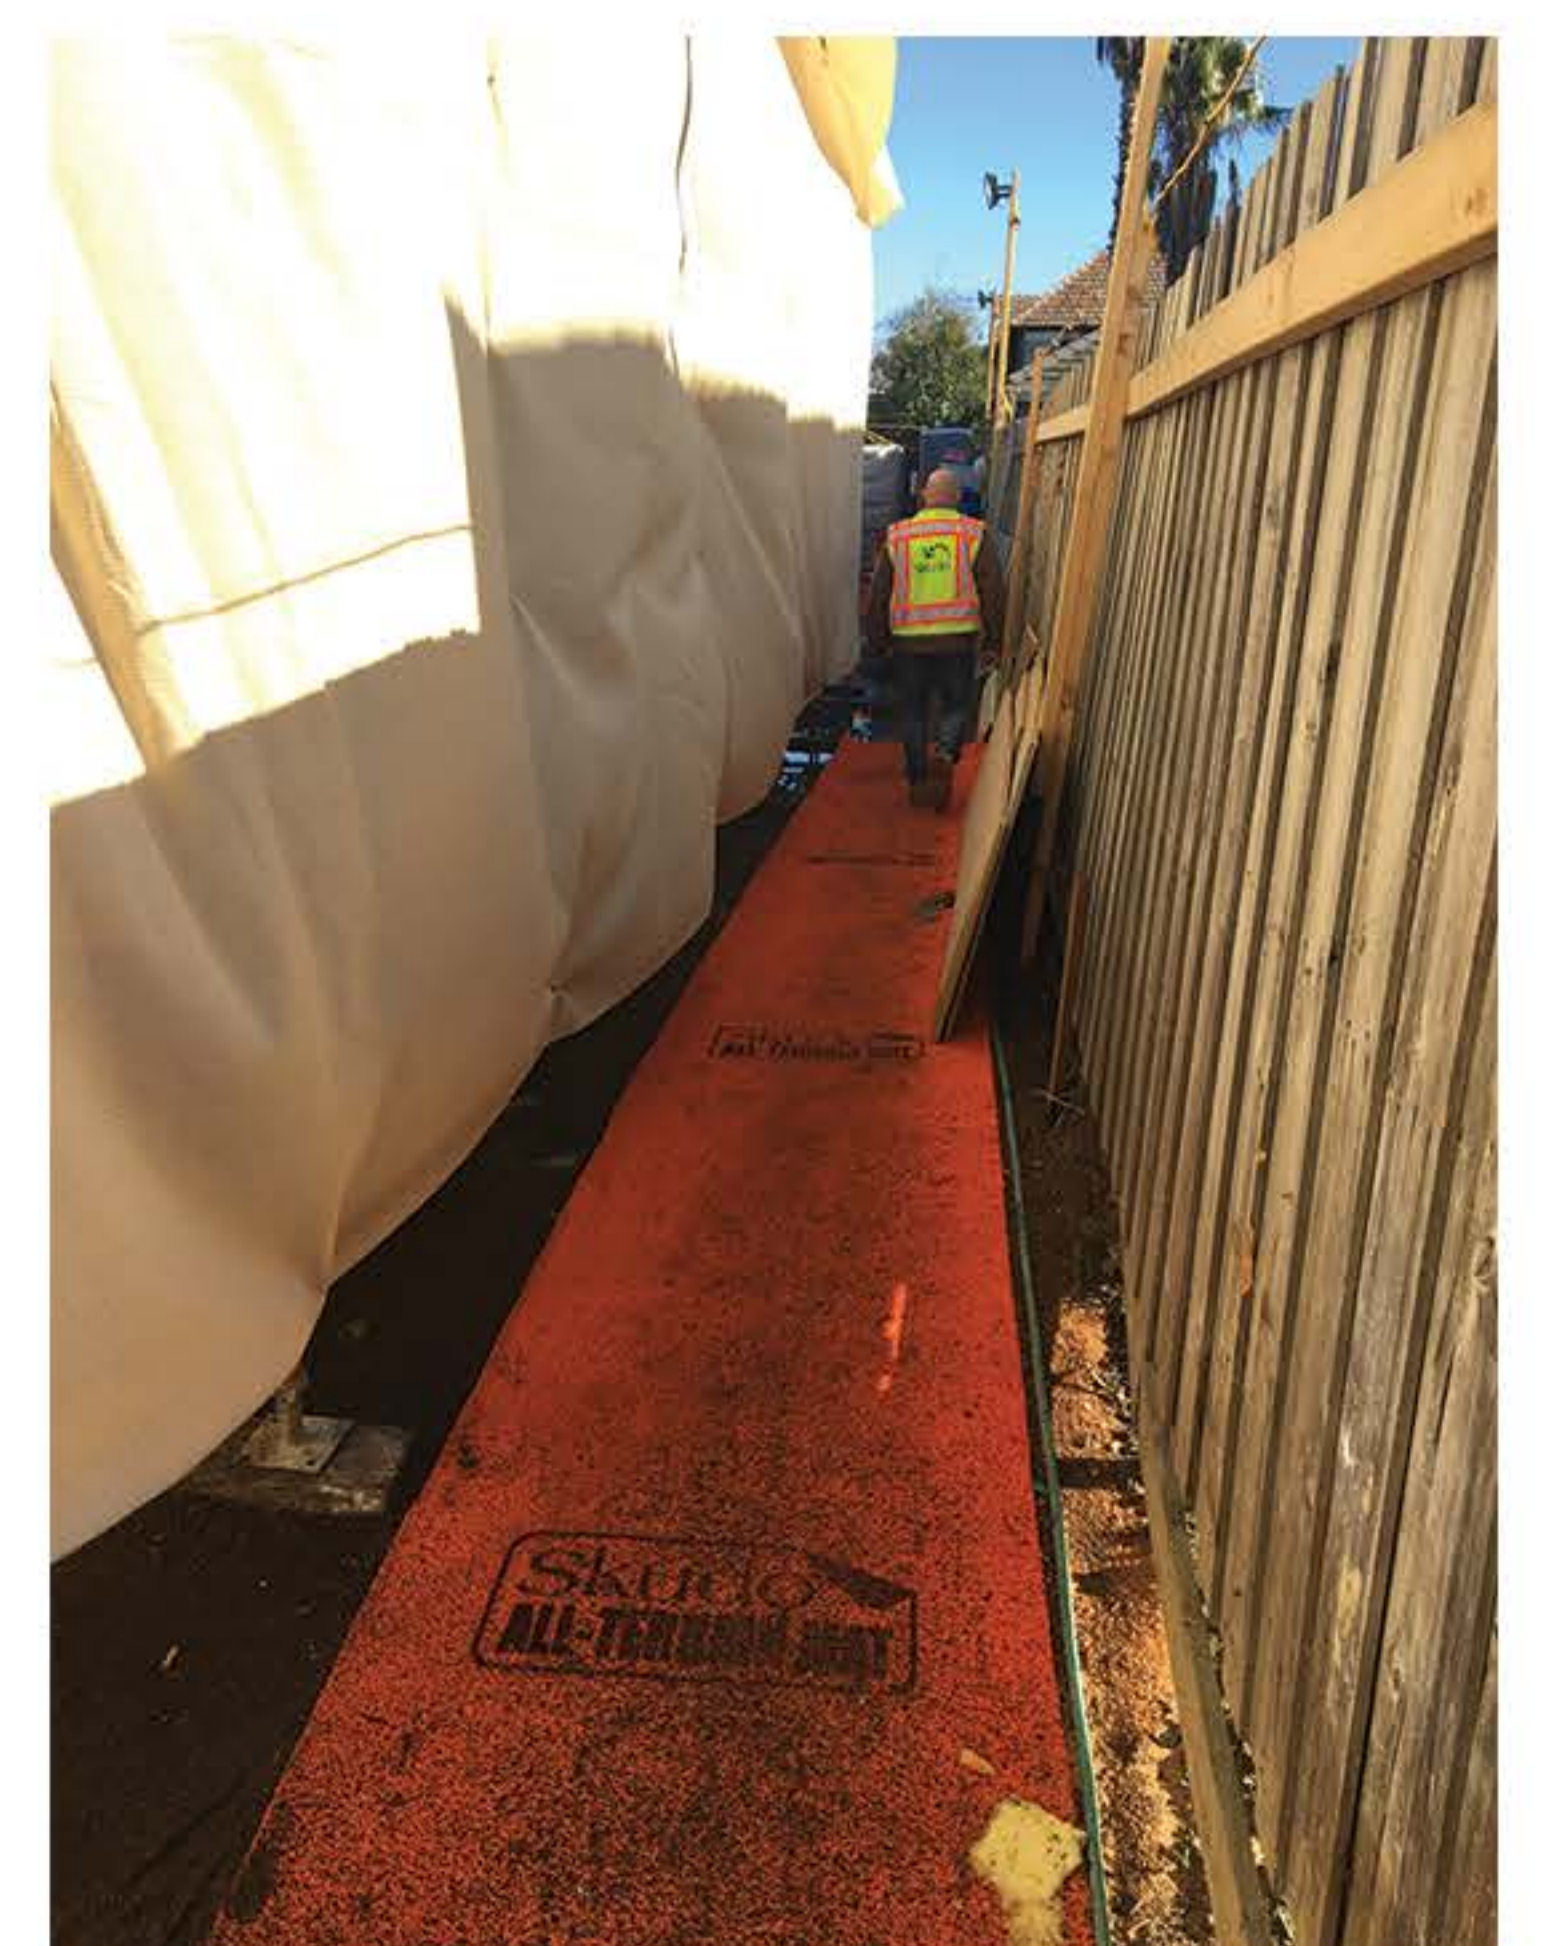

All Terrain Mat 3 has been specially designed to be laid on loose surfaces or un-prepared ground and used as a safe walking and traffic zone within construction sites for work staff and trades people. All Terrain Mat 3 provides heavy duty performance and has been structured to allow for water and dirt to pass through whilst maintaining a safe walking surface on top. All Terrain Mat 3 is designed to provide energy absorbancy under foot which provides a very ergonomic working environment for workstaff.

All Terrain Mat 3 is very durable including resistance to mould and fungal attack as well as withstanding frost and thaw cycles. All Terrain Mat 3 provides a colour fast, fire resistant walkway solution for high traffic, exterior applications.

All Terrain Mat 3 comes ready to use and is very easy to install by ether laying flat on it's own or using it's own fixing system to anchor it. All Terrain Mat 3 can be printed with signage or logos and can be produced in other colours to meet your specification.
